- The 18" TOWEL BAR, 24" TOWEL BAR, GLASS SHELF and TOILET TISSUE HOLDER work best if secured to a wall stud or cross brace within the wall, using the SCREWS (4) supplied.
- If the 18" TOWEL BAR, 24" TOWEL BAR, GLASS SHELF and TOILET TISSUE HOLDER are to be installed on a tile or plaster wall the ANCHORS and SCREWS should be used.
- Determine desired height and location (optional) for the accessory and mark a center line. Use the full size template supplied to mark hole locations for the mounting brackets. For the 24" TOWEL BAR and GLASS SHELF use 24" template. For 18" TOWEL BAR use 18" template. For the TOILET TISSUE HOLDER use the 7" template. If MOUNTING BRACKET (1) is secured to a stud or cross brace drill small pilot holes for SCREWS (2).
- **For installations on drywall**, use DRYWALL ANCHOR (3) and SCREWS (2) for securing MOUNTING BRACKETS (1) to wall. Place #2 Phillips screwdriver or cordless screwdriver into recess of anchor. Press into drywall while turning the anchor clockwise until it is seated flush with the wall. Place MOUNTING BRACKET (1) over DRYWALL ANCHORS (3) and insert screws provided with #2 Phillips screwdriver. See illustration below. Secure MOUNTING BRACKETS (1) to wall with SCREWS (2).
- **For installations on tiled walls**, if TILE ANCHORS (4) and SCREWS (2) are used for securing MOUNTING BRACKET (1), then drill two 1/4" diameter holes a minimum of 1-1/4" deep. Insert the two TILE ANCHORS (4) flush with face of the finished wall.
