Brilliant Smart Home System

Brilliant is a smart lighting and control system that makes it easy for everyone—families, spouses, kids, and guests—to control lighting, doorbells, locks, cameras, music, climate, intercom, scenes, and more. It's easy to install, integrates with the top brands in every smart home category, and transforms any house or apartment into an easy-to-use smart home. It's also the world's first in-wall smart home control system that can be affordably integrated into every home.

The Brilliant Smart Home System

Transform any house or apartment into an easy-to-use smart home. Every Brilliant System must include at least one Home Control.

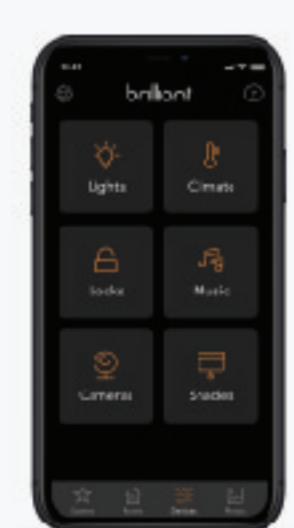

Control (required)

Dimmer Switch

Smart Plug

Mobile App

SMART HOME CONTROL

Make your house a true smart home

Easily control your lighting, music, cameras, locks, climate, scenes, and more—all from your wall or a single app. Includes built-in voice, camera with privacy shutter, motion sensor, video intercom plus a free all-in-one mobile app.

SMART DIMMING SWITCH

Add smart lighting to any room

Turn regular lights into smart lights and make smart lights even smarter with the Brilliant Smart Dimmer Switch. Automactially turn lights on and off based on motion detection, and a whole lot more.

Unified smart home control

There are a lot of smart home products out there, but it's not easy to control them all. Brilliant unifies all your favorite smart home devices and makes them easily accessible through a touchscreen control panel on your wall.

Easy for everyone

Now everyone at home—spouses, kids, family, friends, and guests—can easily use all your smart home devices. Brilliant lets you choose the best way to interact with your home in every situation: touch, voice, motion, or an all-in-one app.

Upgrade any light switch

The Brilliant Smart Home System can be installed in minutes and is just as easy as installing a light switch. No additional hubs, custom wiring, batteries, or programming are required.

WORKS WITH

works with the Google Assistant   Honeywell Home   ecobee   Yale   LIFX   SmartThings   august

Key Features

Smart Home Control
Connects to compatible smart home products over Wi-Fi so you can control your music, climate, locks, and more.

Alexa in every room
Amazon Alexa is built in for voice for home control, news, sports, and more.

Smart lights
Turns any lights into smart lights. Supports LED, CFL, halogen, and incandescent bulbs, and works with dimmable lighting.

Video and Audio intercom
Video intercom with privacy shutter for video or audio calls between rooms when you install two or more in your home

Scene for every occasion
Scenes are an easy way to combine lighting, music, temperature, and other settings to quickly control your smart home with a single tap.

Your photos on the wall
Send photos from your phone to Brilliant and share memories with your entire home. The display is your canvas so have some fun!

Be Brilliant, Anywhere
Not at home? Forgot to turn off a light? No problem. Brilliant has Android and iOS apps for remote home control.

Works with Google Assistant
Once set up, you can say, "Hey Google, turn on the kitchen light" and your Google Assistant-enabled device will respond.

Motion Control
Motion and ambient light sensors detect when someone has entered the room, automatically turning on the display and any programmed scene.
