Part Number:

LEDRA® CHROMA SPOT

Description:

The Ledra Chroma 10W LED spot is a fully adjustable Uni-Light fixture. Industry best color quality and consistency is achieved through the use of single source LED module with cold remote phosphor technology for +50K hours of life. Integral driver allows fixture to work on all Bruck tracks with standard 12VAC transformers using the appropriate adaptor. The design allows for different interchangeable reflectors for a variety of beam spread angles. Operates with magnetic transformer.

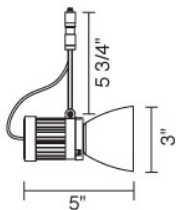

Part Numbers:

137300mc	matte chrome, white frosted glass
137310mc/fl	matte chrome, reflector, 60° flood
137310mc/m	matte chrome, reflector, 40° medium
137310mc/s	matte chrome, reflector, 20° spot

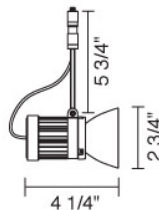

Technical Specs:

12V AC/DC input, 50/60 Hz
700mA DC constant current output
15VA, 12W for 1(10 watt LED)
Warm White source of 400 lumens

with glass shade

with metal shade

Suitable for dry location only

Not compatible with electronic transformers

Dimmable by power supply, for dimming options contact factory
