CADET
SAFETY & QUALITY

Features and Benefits

- Maintains a soft, gentle heat for better comfort
- Now with even lower surface temperatures
- Now with improved heating element: ultra durable and reliable
- Now with environmentally friendly fluid
- Sealed fluid system cools slowly, continuing to retain heat and generate warmth even after shutting off
- Clean: designed to reduce effects of indoor allergens
- More consistent room temperatures with fewer on/off cycles for steady, uniform warmth
- Whisper quiet operation
- Optional field-mount thermostat available

Technical Information:

Heater is constructed of 22 gauge steel for durability and powder coated for a quality finish. Baseboard heaters work best when placed under a window and at least 12" from furniture or other objects. Keep at least 12" minimum from objects hanging above (i.e., drapes). Heater may be placed directly on the floor and mounted to the wall.

Ordering Information:

Standard voltage is 240/208. SOFHEAT EBHN heaters require a thermostat. Optional White Sand color is available by special order. Optional right end wiring available by special order.

General Information:

Introducing the new EBHN Hydronic Baseboard with the lowest surface temperatures available and even better reliability and product life! Cadet's premier hydronic baseboard line is recommended for nurseries and bedrooms, and for people with severe allergies. While Sofheat offers everyone a comfortably warm room, it was specifically designed to reduce the effects of indoor allergens, compared to other heating systems. Additional benefits include lower operating and surface temperatures and whisper quiet operation. The Sofheat hydronic baseboard uses a non-toxic, non-hazardous circulating heat transfer fluid to provide steady, uniform warmth with longer heat retention and minimal temperature variation. No plumbing necessary! Cadet recommends a wall-mounted thermostat for optimum performance, or you may prefer the convenience of an optional double pole field mount built-in thermostat kit.
