

Door Thickness	1 3/8" – 2 1/2"
Spindle Type	2 part 8mm spring loaded spindle
Body Material	Zinc Alloy
Non Handed	Lock will fit doors hung on the left or right
Mortice Latch (410 & 415)	Medium duty, stainless steel latch bolt head with "anti-shim" plunger, 8mm follower. 2 3/8" (60mm) backset, requires 1" hole, 3 1/4" deep. Option as above with 2 3/4" (70mm) backset requiring 3 5/8" deep hole.
Cylinders	Double Euro Profile cylinders with 3 keys. May be ordered Keyed Alike.
Code Free Access option via keypad on models 415 & 425. Neoprene seals are included on both sides to provide friction against the face of the door and to prevent damage from over tightening of the fixing bolts. The outside lever handle has a slipping clutch to prevent damage to the lock if the handle is forced. Suitable for internal and external use.
