Chair Rail Polished	212CR	2 x 12	24
Pencil Rail Honed	112PR	3/4 x 12	36
Pencil Rail Polished	112PR	3/4 x 12	36

Strong random shading enhances the natural beauty of this product. To achieve optimal results, tile should be selected from multiple cartons and shading arrangement planned prior to installation.

Stones are not recommended for any wet areas where they may be exposed to chemicals such as waterlines and pools among others. Polished surfaces are not recommended for floor areas where slip resistance is a concern.

Natural stone products inherently lack uniformity and are subject to variation in aesthetics (color, shade, finish, etc.) and performance (hardness, strength, slip resistance, etc.). Natural stone products do not meet minimum coefficient of friction thresholds recommended by safety standard setting organizations. No warranties, express or implied, relative to merchantability or fitness for a particular purpose are made regarding the natural stone products distributed by Dal-Tile. Check local building codes prior to specification or installation to verify that product technical characteristics comply with required parameters. Final selection should be made from actual tiles and trim, and not from tile and trim samples or color reproductions.

Water, oil, grease, etc. create slippery conditions. Floor applications with exposure to these conditions require extra caution in product selection. Not for use on ramps.

For additional application and technical information, refer to the "Stone Usage Guide" at [www.daltilestone.com/sug.cfm](http://www.daltilestone.com/sug.cfm).
