Installation Instructions Wall Lamp

Please read the instructions carefully before installation of your light fixture. Refer to the drawing below to determine if the type of fixture you have purchased is “single cross bar mounted” or “swivel cross bar mounted” and then proceed accordingly.

1. Single cross bar
2. Threaded nipple
3. Threaded cap
4. Fixture canopy

1. Swivel cross bar
2. Threaded screw pin
3. Ball knobs
4. Fixture canopy

Installation Procedure:

1. Switch off the circuit breaker to the outlet box on which you plan to mount the light fixture.
(Caution!: Disconnect all power before servicing)
2. Fix the cross bar to the outlet box by using existing outlet box screws.
3. Connecting fixture wires to the house wiring: Connect the wires by color, black to black, white to white, and secure the house ground wire (bare copper) to the cross bar ground wire screw. Make sure connections are secure, the polarity is correct, and wire insulation is not worn.
4. Mount the light fixture according to the drawing above.
5. Caulk with silicone or somilar caulking suitable for outdoor use. Completely seal around fixture canopy and mounting surface.
