

It's not gas.
It's better.

Amsden Fireplace Package

The sleek and contemporary design of this mantel enhances the beauty of the realistic Opti-myst® flame. The optional metal backing inserts into the fireplace for a dramatic presentation of the flame effect. A discerning consumer will appreciate the uniqueness of the “floating” cube on the black base.

Revolutionary ultrasonic technology is used to create the flame and smoke effect of the Dimplex Opti-myst®. As the mist rises up through the rocks, the light reflects against the water molecules creating a convincing illusion of flames and smoke. The result is an appearance so authentic it will be mistaken for a real fire.

120 Volts / 1,200 Watts / 4,095 BTU
