

DreamLine™

Bathroom of Your Dreams™

AQUA SHOWER & TUB DOORS

Looking for a modern shower or tub door with incomparable look? The DreamLine™ exclusive AQUA door collection offers unique European designs combined with flexible installation options and a superior value. The standard AQUA door offers cost effective 1/4" glass without sacrificing advanced design. AQUA PLUS introduces two additional standard features: impressive 5/16" glass and self-closing solid brass hinges. The design of AQUA LUX - the third model in the AQUA Shower and Tub Door collection - maintains 5/16" glass thickness and self-closing brass hinge features but substitutes sleek wall mount solid brass brackets for the full length wall profile found on other AQUA door models. A complete AQUA LUX installation consists of a stationary glass panel attached to the wall with wall mounted brackets and a hinged door designed to open outward only. AQUA LUX also offers flexibility of left-wall or right-wall installation. With wall mounted bracket design, AQUA LUX delivers the most frameless look of the AQUA door collection. AQUA Tub Doors are compatible with installation on most bathtubs

AQUA LUX

- Tempered 5/16" (8mm) clear glass
- Self-closing solid brass hinges
- Wall mounted brackets and wall attached bar for stationary glass
- Glass door is reversible for "left-wall" or "right-wall" installation
- All hardware available in chrome and brushed nickel finish

Shower door: 45 1/2" W x 72" H

Tub door: 48" W x 58" H
