Product Dimensions	14" x 5" x 24" - 30 lbs
Package Dimensions	17" x 11" x 29" - 32 lbs

The Eccotemp i12 has a new revolutionary design, making it unlike any other tankless water heater on the market today. This model features a sleek black glass casing, fully automatic temperature controls for precision, touch screen and LCD temperature display which shows output temperature as well as GPM flow. Rated at an impressive 3 GPM, the Eccotemp i12 Tankless Water Heater is available in natural gas or liquid propane, indoor model designed for small to medium hot water production where you need more than one hot water application at the same time. The Eccotemp i12 is perfect for vacation cabins, cottages and smaller homes.

The i12 comes with a horizontal stainless steel vent kit, ready to install and with its 120 volt UL listed power cord powering the internal exhaust fan and digital display. It only pulls about 2 watts idle and 10 watts during operation, making it an ideal energy efficient appliance.
