Stainless Steel

Dimensions

Depth	23 5/16"
Height	27 1/8"
Width	29 3/4"

Features & Benefits

Cooking flexibility

This built-in oven has 10 functions with pre-set temperatures, including Roast, Pasty Bake and Maxi Broil allowing you to use a variety of cooking styles.

Perfect results

A digital microprocessor monitors the temperature to ensure precise heat and a four-way convection system creates even heat distribution throughout the oven, ideal for multi-shelf cooking.

Sized to suit

Designed for multi-shelf cooking, this built-in oven provides 4.1 cu.ft of total capacity allowing you to cook the family roast and a pie for dessert.

Self cleaning

The self-clean function breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth. For best results, wipe down the inside of your oven door before you use the self-clean function.

Information at a glance

Halo illuminated dials provide information at a glance. White – heating up; orange – temperature is reached; red – self-cleaning mode. Three halogen lights and the large oven window creates excellent visibility of what's cooking.

Safe and sound

The CoolTouch door with triple glazing and cooling system is safe to touch from the outside, protecting your hands and the surrounding cabinetry.
