### PVM1970DR GE Profile Spacemaker® 1.9 Cu. Ft. Microwave Oven

#### Dimensions and Installation Information (in inches)

**Note:** Requires 120V grounded outlet. Electrical receptacle must be located in cabinet above Spacemaker microwave oven. No additional wiring, venting or cabinet rebuilding necessary in many cases. Complete detailed, easy-to-follow installation instructions and convenient full-size templates are packed with the Spacemaker microwave oven.

**Important Information:** When installing the Spacemaker microwave oven over a range, allow minimum of 2" from bottom of Spacemaker microwave oven to top of range backguard to allow for removal of light covers.

**Installation Information:** This information is not intended to be used for installing unit described. Before installing, consult installation instructions packed with product/kit for current dimensional data.

## PVM1970DR GE Profile Spacemaker® 1.9 Cu. Ft. Microwave Oven

#### Optional Accessories (Available at additional cost)

**Hood Exhaust Duct:** Outside ventilation requires a HOOD EXHAUST DUCT. Read the following carefully.

**Exhaust Connection:** The hood exhaust has been designed to mate with a standard 3-1/4" × 10" rectangular duct. If a round duct is required, a rectangular-to-round transition adaptor must be used. Do not use less than a 6" diameter duct.

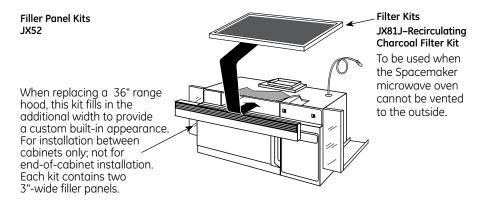

**Rear Exhaust:** If a rear or horizontal exhaust is to be used, care should be taken to align exhaust with space between studs, or wall should be prepared at the time it is constructed by leaving enough space between the wall studs to accommodate exhaust.

**Maximum Duct Length:** For satisfactory air movement, the total duct length of 3-1/4" x 10" rectangular or 6" diameter round duct should not exceed 140 equivalent feet.

**ELBOWS, TRANSITIONS, WALL AND ROOF CAPS:** etc., present additional resistance to airflow and are equivalent to a section of straight duct which is longer than their actual physical size. When calculating the total duct length, add the equivalent length of all transitions and adaptors plus the lengths of all straight duct sections. The chart below shows the approximate feet of equivalent length of some typical ducts.

Duct	Equivalent Feet
A. Rectangular-To-round Transition Adaptor	5 ft.
<b>B.</b> Wall Cap	40 ft.
<b>C</b> . 90° Elbow	10 ft.
<b>D.</b> 45° Elbow	5 ft.
<b>E.</b> 90° Elbow	25 ft.
<b>F.</b> 45° Elbow	5 ft.
<b>G.</b> Roof Cap	24 ft.

# **PVM1970DR** GE Profile Spacemaker<sup>®</sup> 1.9 Cu. Ft. Microwave Oven

### **Features and Benefits**

- 1.9 cu. ft. capacity 1000 Watts (IEC-705 test procedure)
- Circuwave<sup>™</sup> 1000 cooking system Cooking system provides more power for fast, more even cooking results
- Sensor cooking controls Automatically adjusts time and power for delicious cooking results
- Easy clean interior Makes it easy to wipe up spills, splatters and dried-on foods
- Power Saver Reduces standby power while the unit is not in use
- USDA "MyPlate.gov" menu Pre-programmed foods and recipes assist in preparation of healthy meal choices
- Steam cook button Perfectly prepare your steamed favorites for maximum nutrition retention
- 2 piece design with hidden vent Creates a streamlined look for a smooth finish
- Four-speed, 400-CFM venting system Quickly removes smoke, steam and odors from the cooktop for fresh, cleaner kitchen air
- Recessed turntable with on/off Offers the flexibility to use different sizes of dishes. An on/off button controls turntable operation
- Model PVM1970DRWW White on white
- Model PVM1970DRBB Black on black
- Model PVM1970DRCC Bisque on bisque
