## GE Café™ 30" Free-Standing Radiant Range with Baking Drawer

### Dimensions and Installation Information (in inches)

#### Electrical Requirements: 240v/208v; 60Hz, 40A

Effective January 1, 1996, the National Electrical Code requires that new construction (not existing) utilize a 4-conductor connection to an electric range.

**Receptacle Locations:** Locally approved flexible service cord or conduit must be used because terminals are not accessible after range installation. See shaded area in drawing for location of electrical outlet box. Recommended outlet locations allow range to be installed directly against wall.

**Note:** 30" ranges conform to U.L. requirements for 0" spacing from adjacent walls below countertops. To reduce possibility of scorching walls, engineering recommends a minimum of 1-1/2" spacing to allow for possible extended, high-heat, no-load heating element operation.

**Installation information:** Before installing, consult installation instructions packed with product for current dimensional data.

**Optional accessories:** Tall backguard JXS80SS (Available at additional cost)

\*Dimensions from floor to top of the cooktop. Floor to top of rear vent trim is 37-1/4"

**Receptacle locations:** Locally approved flexible service cord or conduit must be used because terminals are not accessible after range installation. See shaded area in drawing for location of electrical outlet box. Recommended outlet locations allow range to be installed directly against wall.

## GE Café™ 30" Free-Standing Radiant Range with Baking Drawer

### Features and Benefits

- PreciseAir™ convection system - A reversing fan circulates heat and air for evenly browned and baked foods
- Single/Multi-Rack Convection Bake - Provides ideal airflow throughout the oven, ensuring optimal results on both racks
- Extra Large Capacity Self-Clean Convection Oven
- Griddle System with Pre-Seasoned, Cast-Iron Griddle - The non-stick griddle is perfect for restaurant-quality steaks, eggs, pancakes and more
- Baking Drawer - Offers an additional 1.0 cu. ft. of capacity for convenient baking from 150 degrees to 450 degrees
- 9"/12" Dual element - Two heating elements in one allows you to choose either a 9" or 12" element for your cookware
- Black gloss oven interior - Black oven interior adds a stylish touch to any kitchen
- Fifth element cook/warm - Versatile element can keep foods warm and boil water in minutes
- Self-clean heavy-duty oven racks - Tough, double-coated racks can stay in the oven during the self-clean cycle to eliminate hand cleaning
- TrueTemp™ oven system - This feature helps ensure the temperature you set is the temperature you get, with less variance, to give you the baking and broiling performance you desire
- Model CS980STSS – Stainless steel
