10 Light Pendant

Softly modern in design, the Posy collection is a bouquet of hand-sculpted stems that reach in every direction. The blooming flowers and organic offshoots form contemporary botanical spheres. Constructed of durable steel, the rough branches are naturally formed, lending texture and dimension to a room. Delicate, white porcelain flowers top the organic stems. Each petal is individually crafted and hand-laid. Offered in two finishes the White Gold finish is delicately refined, while the multi-layered Dark Natural Iron finish provides ample contrast to the white blooms. This large pendant is graciously sized for large rooms.

Fixture Finish:	Dark Natural Iron	
Glass/Shade Finish:	Porcelain Flowers
