## ESC105

### Battery-Powered Cable Cutter

Cutting head  
rotates 350°

## Powerful Cutter for **BIG** Cables

When you need to cut large diameter electrical cables, the ESC105 battery-powered cutter will make your task fast and easy. The ESC105 cuts cables up to 4" (105 mm) in diameter in about 15 seconds, and it's capable of cutting soft steel armored cables as well as lead sheathed cables. This powerful cutter features scissor style blades designed to easily get around cables, or even pick a cable up off the ground. The ESC105 also has a "retraction stop" feature. The operator can momentarily pull the trigger at any point while the blades are opening and then start the next cut without fully opening the blades. This feature saves a lot of time when making multiple

cuts. Because the ESC105 has a large cutting head, it comes with an auxiliary handle that makes maneuvering the tool easy.

Like most other Greenlee battery-powered cutters, the ESC105 has a pistol grip style handle for good control. It has a two-speed pump that rapidly closes the blades and automatically shifts to a lower speed once the blades contact the cable to be cut. So, the next time you need to cut BIG cables, let Greenlee's ESC105 do the heavy work for you.

## Features

- Two-speed pump advances the ram quickly to start a cut.
- Blades open automatically when a cut is complete.
- By momentarily pulling the trigger, the operator can save time by stopping the blades at any point to prepare for the next cut.
- Scissor-style blades are easy to fit around cables and can pick up cables on the ground.
- Cutting head rotates 350° for making cuts in tight locations.
- Accessory handle enhances operator control.
- One-hour battery charger, carrying case, and two batteries included.
- Choice of 120V, 12V, or 230V battery charger.

## Specifications

ESC105	
<b>Capacity:</b> <i>Not for cutting ACSR, guy strand, or other cables with steel strands</i>	4" dia. (105 mm) Cu & Al power cables including soft steel armored, lead sheathed, and communications cables
<b>Length:</b>	23.75" (604 mm)
<b>Height:</b>	23.75" (604 mm)
<b>Weight:</b>	22 lb. (9.9 kg)
<b>Battery:</b>	12V, 2.6Ah, NiMH
<b>Cycles per Battery Charge:</b>	40 (Approximate)
<b>Battery Charge Time:</b>	1 hour
