Starck X Wall Mount Lavatory Mixer
10074XX1

Lavatory shown: Duravit Starck X 700

Technical Data

Flow rate	2.2 gpm
Maximum water pressure	145 psi
Recommended water pressure:	14.5 - 75 psi
Recommended hot water temp.:	120°F - 140°F*

*Many municipalities require that the water heater be set no higher than 120°F. Know and follow all applicable local plumbing codes when setting the temperature on the water heater.

Prepare to install the faucet:

This faucet requires 2 1/2" female threaded fittings, spaced 3 1/8" apart (on center) for the hot and cold supplies. For proper operation of the faucet, the hot supply should be to the left, the cold to the right. The fittings should be recessed 3/8" behind the surface of the finished wall.

Finish and seal the wall before installing the faucet.

Your local plumbing codes may require supply stops for the hot and cold water supplies. These should be installed in an easily accessible location.

Know and follow all applicable plumbing codes regarding the air gap between the end of the spout and the flood level of the sink.

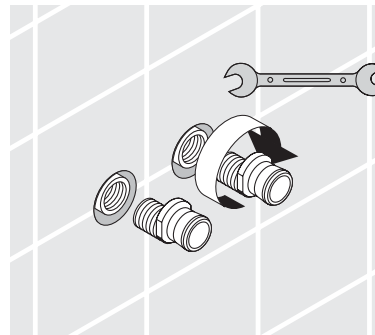

No drain is included with this faucet. Contact the manufacturer of your specific lavatory for recommendations regarding a suitable drain.

Install the faucet:

- Seal the wall with a compatible, waterproof bathroom sealant.

- Wrap the threads on the offset adapters with Teflon™ tape. Install them to the hot and cold supplies.

- Use the guide to adjust the offset adapters. The rear of the adapter should be no more than 5 mm (3/16") in front of the surface of the finished wall. Make sure that the adapters are level!

- Position the faucet over the offset adapters. Press firmly into place. Install and tighten the set screws, using the enclosed allen wrench.

User Instructions:

Pull the handle down to turn the water off. Push it up to turn the water on.

Push the handle to the right for cooler water, to the left for warmer water.

Replacement Parts

Cleaning Recommendation for Hansgrohe Products

Modern faucetry and shower products utilize a combination of materials to comply with the needs of the market with regard to design and functionality.

To avoid damage, it is necessary to use some caution when cleaning. Damage caused by improper treatment is not covered under the Hansgrohe warranty.

Cleaning Materials for Faucets and Showers

- To remove lime scale, use only products made specifically for that purpose. Always follow the manufacturer's instructions when using.
- Do not use cleaners that contain hydrochloric, formic, acetic, or phosphoric acids, as these will cause considerable damage to finishes and to plastic components.
- Never mix cleaning materials.
- Never use cleaners containing abrasives. Do not use abrasive cleaning cloths, pads, or sponges.

Cleaning Procedures

- Clean your faucets and shower products as and when required. Regular cleaning will prevent scale buildup and water spotting.
- Follow the label instructions. Do not allow any cleaner to remain on the product for longer than necessary.
- When using spray cleaners, spray first onto a sponge or cloth – do not spray directly onto the product.
- After cleaning, rinse thoroughly with clear water to remove any cleaner residue.

Important

- Soap and shampoo residue can also cause damage to the product. Rinse well with clean water after use.
- If the surface is already damaged, harsh cleaning materials will cause further damage.

Limited Lifetime Consumer Warranty

This product has been manufactured and tested to the highest quality standards by Hansgrohe, Inc. ("Hansgrohe"). This warranty is limited to Hansgrohe products which are purchased by a consumer in the United States after March 1, 1996, and installed in either the United States or Canada.

WHO IS COVERED BY THE WARRANTY

This warranty extends to the original consumer purchaser only.

WHAT IS COVERED BY THE WARRANTY

This warranty covers only your Hansgrohe manufactured product. Hansgrohe warrants this product against defects in material or workmanship as follows: Hansgrohe will repair at no charge for parts only or, at its option, replace any product or part of the product which proves defective because of improper workmanship and/or material, under normal installation, use, service and maintenance. If Hansgrohe is unable to provide a replacement and repair is not practical or cannot be timely made, Hansgrohe may elect to refund the purchase price in exchange for the return of the product.

LENGTH OF WARRANTY

Replacement or repaired parts of products will be covered for the term of this warranty as stated in the following two sentences. If you are a consumer who purchased the product for use primarily for personal, family, or household purposes, this warranty extends for as long as you own the product and the home in which the product is installed. If you purchased the product for use primarily for any other purpose, including, without limitation, a commercial purpose, this warranty extends only (i) for 1 year, with respect to Interaktiv and Retroaktiv products, and (ii) for 5 years, with respect to AXOR, ShowerPower and Pharo products.

THIS WARRANTY DOES NOT COVER, AND HANSGROHE WILL NOT PAY FOR:

- A. Conditions, malfunctions or damage not resulting from defects in material or workmanship.
- B. Conditions, malfunctions or damage resulting from (1) improper installation, improper maintenance, misuse, abuse, negligence, accident or alteration, or (2) the use of abrasive or caustic cleaning agents or "no rinse" cleaning products, or the use of the product in any manner contrary to the product instructions.
- C. Labor or other expenses for the disconnection or return of the product for warranty service, or for installation or reinstallation of the product.
- D. Accessories or related products not manufactured by Hansgrohe.
