Elements

Residing in the hands of the same family for generations, the **CIAO BELLA Collection** is inspired by the small farmhouses that dot the French and Italian countryside. The rustic styling offers an eclectic mix of European farmhouse pieces that have the appearance of furniture that has been refinished multiple times as it has passed through the generations.

Constructed of maple, spruce and white oak, the collection features eight finishes that accentuate the historical nature of European farmhouses – many of which include a variety of furniture styles that have been added by each generation of owners.

With a variety of pieces for the bedroom, dining room, living room and home office, standouts include a rustic upholstered panel bed with a metal headboard and footboard in a weathered finish and an 80-inch tall wardrobe in the light pewter finish that is rubbed to expose the maple undertones of the piece. Dining pieces include

an 84-inch friendship table, a 60-inch round dining table and an 120-inch rectangular dining table, which pair well with several dining accessory pieces including a metal and concrete console table and a unique metal-framed bar cart with casters.

Several occasional and accent pieces feature architectural details that are indicative of European farmhouse styling.

With timeless pieces that never go out of style, Ciao Bella takes us back to a simpler era where life seemed to move more slowly than it does today.

Quality

Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.

Quality From Start To Finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.
