## BATHING IN SAFETY AND COMFORT

## THE PAST, PRESENT AND FUTURE OF HYDROMASSAGE

ROY JACUZZI PRESENTED THE FIRST BATHTUB WITH A HYDROMASSAGE SYSTEM IN 1968

It was called “Roman Bath” and had exclusive jets on the sides that supplied a mixture of water and air to massage the whole body. A sensation that had never before been felt, born to become an integral part of the bathroom, of the home and of the daily life of millions of people.

A concept that has been imitated an endless amount of times but has never been equaled. Because nobody like Jacuzzi knows the technology of hydromassage, the way in which it interacts with the shape of the bath and the right power and position of the jets to stimulate the vital areas of the body. No other brand is capable of combining science and design to create a multiple and innovative range of solutions. Jacuzzi is always ahead of everyone else: ahead in know-how, research and sensations.

## SOAK IN EXCELLENCE

SHUT YOUR EYES AND SOAK IN A JACUZZI® BATHTUB HYDROMASSAGE:  
YOU WILL EXPERIENCE SENSATIONS THAT YOU HAVE NEVER FELT BEFORE

Let your mind and body go. Give in to a real and deep well-being. Experience total regeneration. Your body will be welcomed in the embrace of perfectly ergonomic shapes, while the scientifically positioned and calibrated stream of air and water delivered by the original jets stimulate all the vital functions of the body at the right intensity. This is because Jacuzzi invented the hydromassage bath and still represents the “state-of-the-art” of this technology and of this way of conceiving and experiencing well-being.

JACUZZI® TECHNOLOGY:  
POWERFUL PERFORMANCE AND CALMING PLEASURE

### POINTPRO®

These large-sized jets target stress points with a vigorous deep hydromassage that is forceful, but never uneven or uncomfortable. Adjust the flow rate to apply just the perfect amount of extra pressure to sore, stiff muscles.

### MICRO POINTPRO®

The medium precision jets pamper you with a focused massage to areas that need it most — back, calves and feet. A reduced flow rate and maximum maneuverability relieve tension in all the right places.

### LEGENDARY JETTING SYSTEM

Jacuzzi® jetting system produces deep, wide plumes of water for greater hydrotherapy.
