

- **Large Single Nail J-hooks:** This style of hanging hardware is typically used for large stretch canvas art pieces, though it should be noted that these are sometimes used on Mirrors or Alternative Wall Décor items when applicable. The Large Single Nail J-hook pack is composed of two individual j-hooks and two nails for each respectively. These j-hooks can be used to hang items directly in drywall.

Figure 3: Large Single Nail J-hook pack. The nail goes through the opening at an angle so the j-hook will sit flush on the wall
