

12" PLANER-JOINTER COMBO MACHINE

The new JET® 12" Jointer/Planer, has combined two machines into one. A large 12" width cutting capacity allows for the jointing and planing of boards of the same width. This machine features quick change over between jointer and planer operations, a 4" dust port, and a 3HP induction motor.

12" PLANER-JOINTER COMBO MACHINE

- Powerful 3HP induction motor
- V-Belt transmission for smooth and consistent power
- Three high speed steel knife cutterhead provides efficient cutting and a superior finish
- Heavy-duty cast iron and steel construction for added strength and durability
- Quick change-over between jointing and planing operations
- Large Industrial style jointer fence
- Paddle style push button power switch
- 4" dust port for both jointing and planing
- Fully adjustable infeed and outfeed tables
- Industrial style cutter guard

STOCK NUMBER	708475
Model Number	JJP-12
Net Weight (lbs.):	500
Cutting Capacity (W x D/in.):	Jointer :12 x 1/8 ; Planer: 12 x 5/32
Cutterhead Speed (RPM):	5500
Cuts Per Minute:	16500
Cutterhead Diameter (in.):	2-3/4
Number of Knives (Helical/ Standard):	3 Standard
Standard Knife Size (L x W x T/in.):	12 x 1-3/5 x 1/8
Table Height (in.):	33-1/2
Table Size (L x W/in.):	55 x 12
Infeed Table Length (in.):	27
Outfeed Table Length (in.):	27
Fence Size (L x H/in.):	43 x 6
Fence Tilts (deg.):	90- 45 R
Fence Positive Stops (deg.):	90, 45R
Dust Port Diameter (OD/in.):	4
Dust Collection Minimum CFM Required:	400
Motor Amps:	16
Motor HP:	3HP
Motor Phase:	1Ph
Motor Voltage:	230V
