

QUESTION

1. The diamond-shaped object is a square rotated 45 degrees. The central circle is inscribed within the diamond. The four lines extending from the corners are labeled 1, 2, 3, and 4. Line 1 is the top-left line, line 2 is the top-right line, line 3 is the bottom-right line, and line 4 is the bottom-left line.

## FACTFILE

Line	1	2	3	4
Color	Black	Black	Black	Black
Shape	Circle	Circle	Circle	Circle
Position	Top-left	Top-right	Bottom-right	Bottom-left

1. The diamond-shaped object is a square rotated 45 degrees. The central circle is inscribed within the diamond. The four lines extending from the corners are labeled 1, 2, 3, and 4. Line 1 is the top-left line, line 2 is the top-right line, line 3 is the bottom-right line, and line 4 is the bottom-left line.

2. The diamond-shaped object is a square rotated 45 degrees. The central circle is inscribed within the diamond. The four lines extending from the corners are labeled 1, 2, 3, and 4. Line 1 is the top-left line, line 2 is the top-right line, line 3 is the bottom-right line, and line 4 is the bottom-left line.
