

#### Product Information

Applicable product:	
Bath and shower valve trim	K-T5318-4
Shower trim with diverter button	K-T5319-4
Shower trim, less diverter button	K-T5320-4
Mixing valve trim with diverter button – ADA compliant	K-T5321-4
Mixing valve trim, less diverter button – ADA compliant	K-T5322-4
Required accessories:	
Rite-Temp® pressure-balancing valve <b>OR</b>	K-304-**
HiFlow Rite-Temp valve with stops <b>OR</b>	K-2971-**
Rite-Temp valve with push-button diverter	K-11748-**
** For a complete listing of all the Rite-Temp valves, refer to the individual valve Specification Sheet or Roughing-In Sheet.	

#### Installation Notes

Install the valve trim according to the installation guide.

Install the Rite-Temp valve according to the installation guide.

**CAUTION: Risk of product damage.** Long screws, for installing trim, can damage the K-2971-KS valve. Consult the trim installation guide to verify if the thin wall installation kit (88526) is needed.

Avoid cross-flow conditions. Do not install a shut-off device on either valve outlet.

Cap the shower outlet if the deck-mounted spout, diverter, or handshower is connected to the spout outlet.

Install a 7" (178 mm) to 18" (457 mm) straight pipe or straight tube with single bath elbow between the valve and the wall-mount spout.
