# Added On-Wall Control. No New Wires.

## Enjoy an average of 85% time-savings while getting more go-ahead projects with Easy Kits from the radiant® Collection.

**legrand®**

When it comes to installations, there's easy... and then there's wireless-devices-that-mount-to-any-surface EASY. With these kits from the radiant® Collection, we're making it EASY to greenlight more projects and boost productivity with three versatile solutions that use the "with Netatmo" platform to let you add on-wall control wherever it is wanted. All without the show-stopping hassle or expense of cutting new holes or pulling new wires.
| | TRADITIONAL INSTALL | EASY KITS INSTALL |
|---|:---:|:---:|
| **Install / Re-Wire Device #1** | X | X |
| **Cut Drywall for Wiring + Device #2** | X | |
| **Run New Wiring for Device #2** | X | |
| **Install Device #2** | X | |

## Easy 3-Way Switch Kit, White

### WNREZK10WH

Add a wireless switch for control of a light or fixture from a second on-wall location.
Ideal for spaces without 3-way wiring.

KIT INCLUDES:

(1) radiant® Switch with Wall Plate (WNRL10WH);
(1) radiant® Wireless Switch with Wall Plate (WNRL23WH)

## Easy 3-Way Dimmer Kit, White

### WNREZK50WH

Add a wireless dimmer for light-level control of a light or fixture from a second on-wall location.

Ideal for spaces without 3-way wiring.

KIT INCLUDES:

(1) radiant® Tru-Universal Dimmer* with Wall Plate (WNRL50WH);
(1) radiant® Wireless Dimmer with Wall Plate (WNRL63WH)

*The Tru-Universal Dimmer is designed to work with virtually any 120V dimmable bulb or fixture.

## Easy Switched Outlet Kit, White

### WNREZK15WH

Add a wireless switch for on-wall control of a lamp or other plugged-in appliance.

Ideal for rooms without overhead lighting.

KIT INCLUDES:

(1) radiant® 15A Outlet with Wall Plate (WNRR15WH);
(1) radiant® Wireless Switch with Wall Plate (WNRL23WH)

Replace an existing switch, dimmer or outlet with the kit's wired device (neutral required), then simply mount the included wireless switch or dimmer to any wall with the provided adhesive – no cutting or wiring required – to add multi-location control in seconds.

Devices come pre-paired; no configuration required.

Additional wireless switches/dimmers can be purchased separately and paired for on-wall control from even more locations.

## WANT TO ADD APP CONTROL?

Built on the "with Netatmo" platform, these kits are equipped for enhanced functionality. Simply add a Smart Gateway with Netatmo to gain app control and other smart features. Learn more at legrand.us/addappcontrol

## SAVING TIME & GAINING OPPORTUNITIES

With installation costs running an average of **$2800* less per project**, get ready for more homeowners to say "yes!" to adding more control.

*Estimated savings compared to service call for adding 3-way wiring.
