Construction
OLED panels encased in a five-piece die-cast aluminum structural frame. Mounting hardware with no exposed fasteners. Class II wiring.

Source
5 OLED panels per module.
Available in 3000K color temperature.

Finish
Brushed nickel paint, semi gloss white paint, or champagne paint.

Mounting
Two-fastener mounting of Chalina module with stem(s) to ceiling. Canopy is mounted to a 4" octagonal or full-size round junction box (supplied by others). Includes swivel pendant mechanism allowing for up to 45° sway from vertical.

Environment
Ambient operating temperature from 0°C to 30°C, dry location only.

Electrical
120V
Integral 0-10V dimming driver.

Color Quality
The broad-band light emission of our OLEDs yields a full spectral power distribution, resulting in excellent CRI (88 CRI). Virtually no energy is wasted in the UV or IR regions of the spectrum.
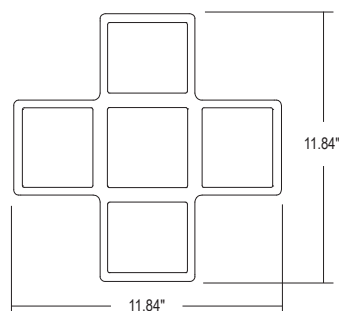

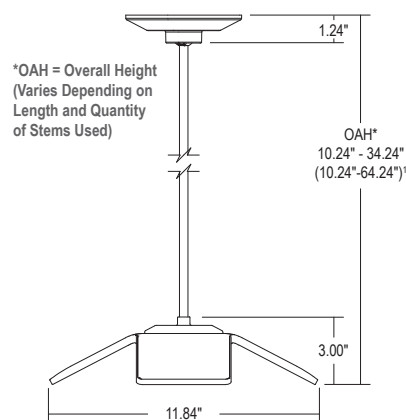

Validation
UL/cUL listed for dry locations. Complies with FCC Part 15 Class A and Class B. LM-79 tested.

Warranty
Three-year limited warranty. Complete warranty terms located at www.acuitybrands.com/oled/consumer-products.

Actual performance may differ as a result of end-user environment and application. Actual wattage may differ by +/- 10% when operating between 110-130V +/- 10%.
