

# Lutron® | Ceana™ dimmers and switches

**Control the lights comfortably and easily even in the dark.**

## **Ceana dimmers**

- push button to turn lights on/off
- large, curved buttons are comfortable and easy to use
- large slider adjusts light level to suit any activity
- button glows softly – easily find the dimmer in the dark; slider track glows, allowing the light level to be set even before turning the light on
- position of slider indicates light level at a glance
- matching Ceana switches available for a coordinated look and for 3-way applications

## **Ceana switches**

- push button to turn lights on/off
- button glows softly – easily find the switch in the dark
