CounterMax MX-L-LPC 24" 8-Light LED Under Cabinet

MXInterLink5 technology allows for great flexibility in installation of the CounterMax MX-L-LPC series. Each item in the MX-L-LPC series is sold separately, and the MX-L-LPC under cabinet light will require additional accessories if not being used as an add-on to an existing installation. The MX-L-LPC series features a built-in dimmable driver that can be powered by a corded plug, direct-wire via a direct wire box or by being connected via a connecting cord to another unit. All accessories are sold separately and are available in black or white to better match cabinets and MX-L-LPC finish. Uses MXInterLink5 accessories. Click [here](#) for a complete list of compatible accessories.
