

## A line drawing of a medical device, likely a laryngoscope. It features a long, curved blade with a small hook-like structure at its tip. The blade is attached to a handle that has a circular control knob or dial on its side. The drawing is a simple black-and-white line art illustration.

- Metal construction with various finishes identified by suffix
- Hydrolock® quick connect installation
- Pullout spray with 68" braided hose
- Flexible supply lines with 3/8" CC fittings connect directly to supply stop
- 360° rotating spout provides ability to install handle on either side

- Lever style handle
- Operates with less than 5 lbs. of force
- Operates in stream or spray mode in the pullout or retracted position
- When filling a vessel outside the sink, the pause feature conveniently stops the flow of water as the wand passes over the counter top

- Flow is limited to 2.2 gpm (8.3 L/min) at 60 psi

- Ceramic disc cartridge
- Non-metallic, non-ferrous and ceramic materials

- Third party certified to ASME A112.18.1/CSA B-125.1, and all applicable requirements referenced therein including NSF 61/9
- Contains no more than 0.25% weighted average lead content
- Complies with California Proposition 65 and with the Federal Safe Drinking Water Act
- The backflow protection system in the device consists of two independently operating check valves, a primary and a secondary which prevent backflow

- **ADA**  for lever handle

- Lifetime limited warranty against leaks, drips and finish defects to the original consumer purchaser
- 5 year warranty if used in commercial installations

**Model:** CA87006 series

**NOTE:** THIS FAUCET IS DESIGNED TO BE INSTALLED THRU 1 HOLE, 1-1/2" (38mm) MIN. DIA.
