

Assembly Instruction Sheet #IS-PCED8517C For Style PCED8517C

Please go to www.quoizel.com for product cleaning tips. Go to the Care + Maintenance selection.

Tools Required: Flathead screwdriver, Phillips screwdriver, pliers, wire cutters, wire strippers, electrical tape, safety glasses.

Light Source: LED 12W

Estimated Assembly Time: 20-30 minutes

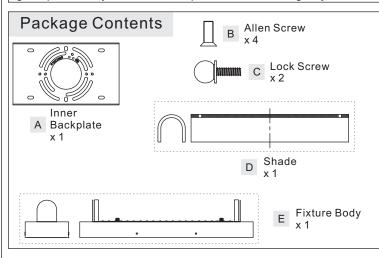

Preparation: Identify and inspect all parts before beginning installation. Check package content list and diagrams below to be sure all parts are present. If any parts are missing or damaged, do not attempt to assemble, install, or operate the fixture. Contact customer service for replacement parts.

△ Warnings and Cautions

Turn off electricity at circuit breaker or main fuse box before installation. Consult a licensed electrician if in doubt.

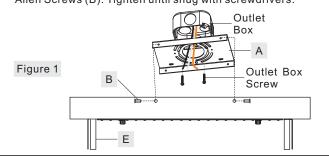

These instructions are provided for your safety. It is very important you read them completely before installing the fixture. We strongly recommend that a licensed, professional electrician perform the installation.

Disconnect fixture from power source before replacing bulbs. Make sure bulbs are given sufficient time to cool before removal. Do not subject glass parts to any shock while in operation or shattering may result.

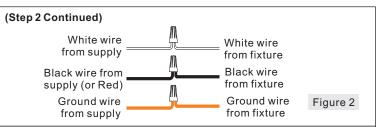

STEP 1 - Install Inner Backplate and Fixture Body

- A. Pass the supply wires through Inner Backplate (A). Attach Inner Backplate (A) to Outlet Box with the head of Green Ground Screw facing you. Secure it with Outlet Box Screws (not included). Tighten until snug.
- B. Race all supply wires through the Inner Backplate (A) as shown. Refer to Step 2 for wiring connections.
- C. Attach Fixture Body (E) over Inner Backplate (A) and secure with Allen Screws (B). Tighten until snug with screwdrivers.

STEP 2 - Wire Connections

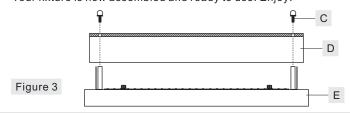

A. Use standard wire connectors (not included) to make all wire connections. (Connectors are not included with fixture.) Twist connectors until wires are tightly joined together. Wrap each connection with approved electrical tape and carefully stuff all the connected wires between Inner Backplate (A) and Fixture Body (E).

STEP 3 - Install Shade

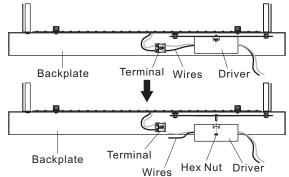

A. Place Shade (D) onto the Fixture Body (E), line up the hole on the Shade (D) and the mounting hole on the Fixture Body (E). Secure by threading Lock Screws (C) onto the Fixture Body (E). Hand tighten until sung.

Your fixture is now assembled and ready to use. Enjoy!

How To Replace The Driver

- A. Remove shade from backplate. Disconnect the fixture from the outlet box.
- B. Unplug Driver wires from the Terminal by pressing the tabs on the Terminal. Unlock Hex Nuts on the side of the Driver and replace the Driver with a new one. Tighten the new Driver with the previously removed Hex Nuts.
