Care and Cleaning of Vanity

The finished solid wood and genuine wood veneer components used in your furniture are finished with a high quality, catalyzed top coat designed to withstand the wear of continuous usage for many years. Our finishing materials are specially formulated to meet the most stringent industry standards for resistance to moisture, food stains, grease, cosmetics, soap and detergents. This finish protects the wood and enhances its natural beauty. The following are guidelines and recommendations to keep your Porcher furniture looking beautiful.

Regular Exterior Cleaning requires only wiping with a damp cloth and drying with a soft, clean cloth.

Remove Oil, Grease or General Soil using a clean cloth dampened with a solution of mild soap, such as Murphy's Oil Soap® and water. Dry thoroughly.

Never use soap pads, steel wool, self polishing waxes or cleaners that contain bleach, ammonia or abrasives.

Preserve Your Finish by Removing Excess Water
