

Features & Benefits WATERPROOF WINTER GLOVE

The Raptor Waterproof Winter Glove features triple-layer technology built from an insulating micro-fleece liner, waterproof/windproof membrane and durable outer shell.

- 1 A soft, insulating micro-fleece inner liner keeps hands warmer
- 2 Waterproof/windproof membrane middle layer
- 3 Neoprene cuff with Velcro closure adds wrist support and locks out cold
- 4 Stretch nylon outer shell form-fits to top of hand for superior dexterity
- 5 Foam padding on knuckle provides extra top of hand protection
- 6 Reinforced synthetic suede fingertips add protection
- 7 Terry cloth thumb to wipe away sweat and debris (or nose)
- 8 Durable synthetic suede base layer does not shrink, stretch or harden
- 9 Flexible non-slip reinforcement grips in wet conditions and resists abrasion
- 10 Double stitched bonded nylon thread secures reinforcement in place
- 11 Non-slip saddle extends durability and grip in critical wear area
