

4W Series Installation Instructions

- **Door Unit**
(25" tall version shown)

- Step 1.** Loosen Adjustable Mounting Brackets (AMB's), adjust until unit is in center of door.
(This is to ensure door swing clearance, away from non-hinge side of door)
- Step 2.** Tighten AMB's after desired placement is achieved
- Step 3.** Make sure bottom of unit clears cabinet opening.
(If swing out unit is installed, door unit should be mounted at same height)
- Step 4.** Screw unit into door frame using 4mm x 16mm screws provided for AMB's
