RE•SERIES™

Rinnai Efficiency Series

The Most Advanced Non-Condensing Tankless Water Heater

1 **New**
**Easy open/close and
clean internal layout**, for
fast access to components

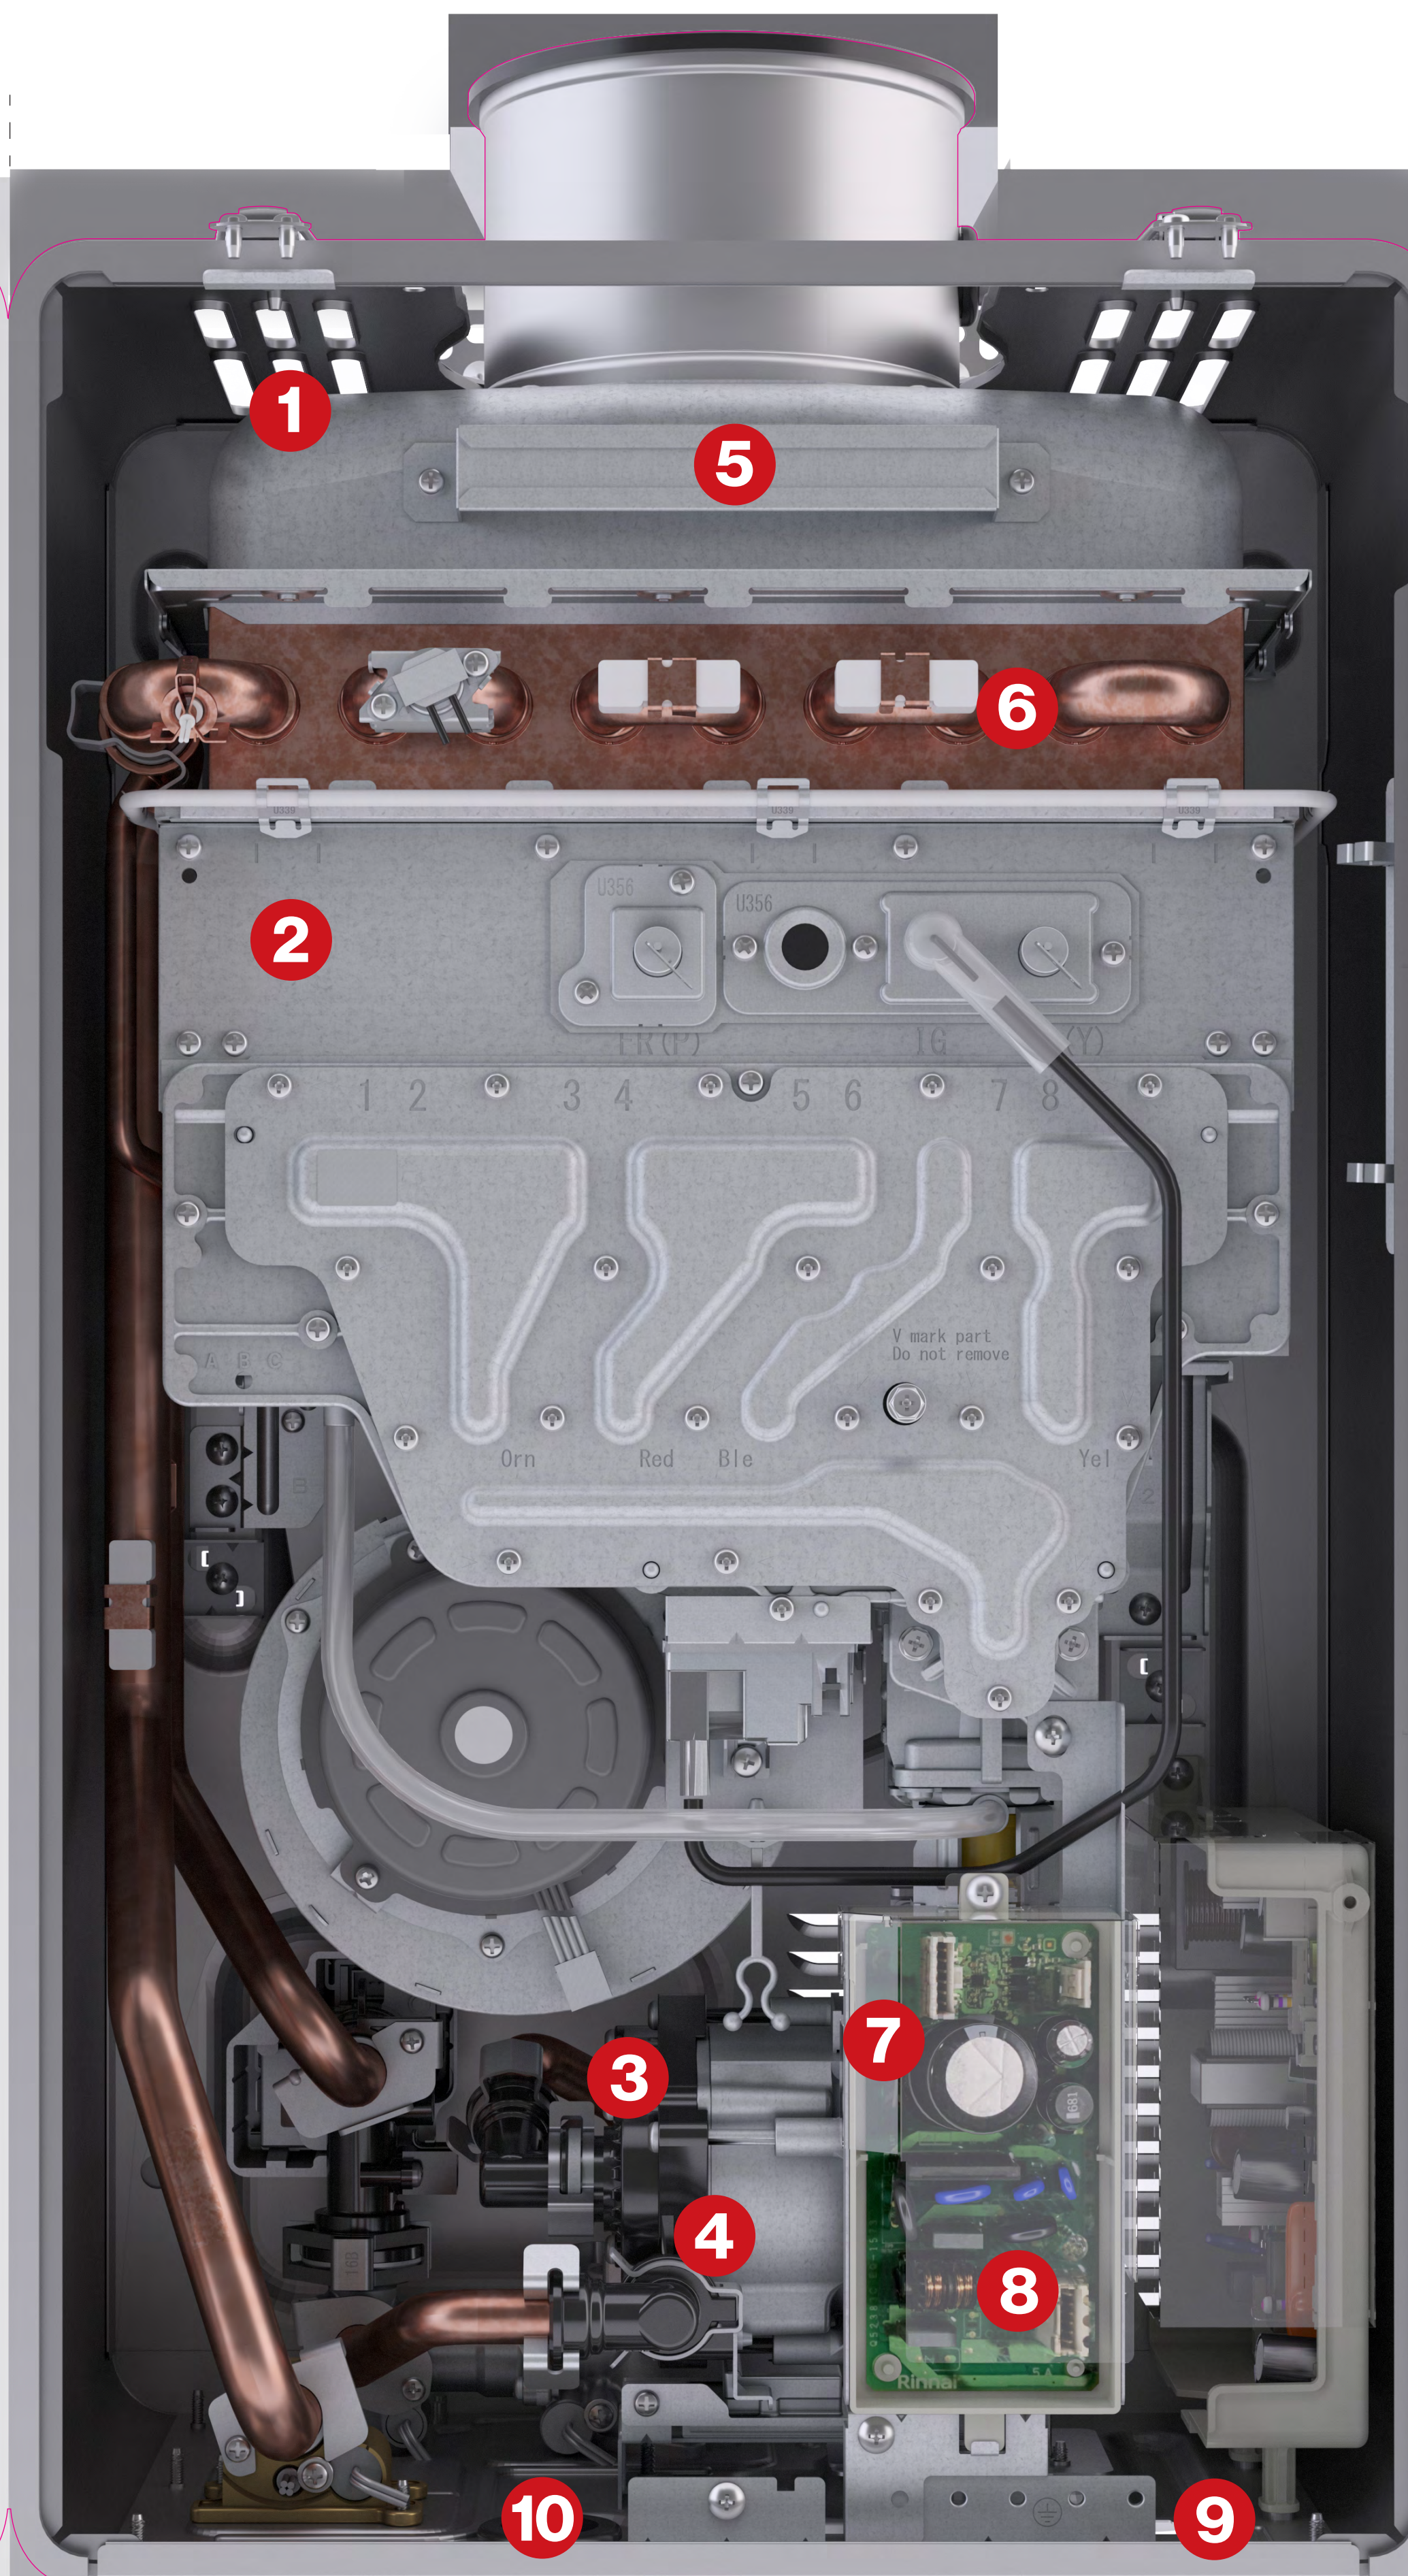

2 **New**
Sleek redesign means
fewer fasteners, for easy
access to serviceable
components

3 **New**
**Updated integrated
control screen**
for fast set-up and
easy troubleshooting

**Programmable service
reminders** simplify
scheduled maintenance

4 **New**
**Two models with built-in
recirculation pump** for
faster, value-added installs

5 **New**
Lower BTU models
(indoor and outdoor)
allow accurate sizing
for smaller homes

The new RE•Series tankless water heater is the first and only non-condensing unit with built-in recirculation using Smart-Circ™ Intelligent Recirculation.

**Proudly assembled at our
new manufacturing facility
in Griffin, Georgia, USA.**

6 **Compact copper
heat exchanger** for
superior non-condensing
performance; better
heat transfer at
higher temperatures

7 **New**
**Built-in recirculation
control**

8 **New**
**Smart-Circ™ Intelligent
recirculation “learns”
users’ hot water patterns**
to schedule recirculation

Smart-Circ™
Intelligent Hot Water

9 **Optional**
Leak detection kit reduces
homeowner emergencies,
for added peace of mind

10 **Optional**
Freeze protection
drain-down accessory
protects home and
water heater

NOTE: Model shown includes pump.
