

Home Door/Window and Motion Sensors

Connects with Nexia™ Home Intelligence

Monitor activities within the home with the Schlage Home Door/Window and Motion Sensors. Know the instant a door or window is opened or closed, and detect motion in a specific area of your house. Best of all, you can monitor your home even when you're not there—all from any Internet-enabled smart phone, tablet or computer, thanks to Nexia Home Intelligence.

▶ Remotely monitor your doors and windows.

▶ Set temperature to change when windows have opened or closed.

▶ Set lights to turn on when activity is detected.

▶ Record a short video when motion is present.

TO ACTIVATE FULL REMOTE FUNCTIONALITY

The Nexia Home Bridge is sold separately and required for remote access with Nexia Home Intelligence. It allows the Internet to interface with Nexia products (locks, thermostats, lights, camera, etc.) enabling full remote functionality. To activate the Bridge and create a Nexia account, visit mynexia.com.

With Nexia Home Intelligence, you can keep your home within reach—from wherever you are. Most Internet-enabled devices can be connected to the Nexia Bridge, the system's main controller, to provide the interface needed to easily monitor and control some of the most basic daily functions of the home, including security, lights, HVAC, cameras and more.

Nexia Home Intelligence was pioneered by Schlage® and Trane®, two brands that have been innovating solutions for the home for many years. With Nexia's revolutionary ability to transform the lifestyles of today's homeowners, several other well-known household brands have developed products to integrate into the Nexia Home Intelligence system as well.

Visit nexiahome.com for more details.

Monthly Subscription

Nexia Home Intelligence gives homeowners the ability to remotely manage the most important systems in a home for a minimal monthly fee.
