How to Install MR11 Bulb and Matrix™ Pendant:

Pendants may be mounted to monorail systems, monopoints or line voltage track by coupling to the quick connect transformer adapter. Attached to the socket is a cable that may be cut on site during installation to any length (see instructions below).

- 1 Position the pendant grid against the socket and secure in place by screwing the metal collar onto the socket.
- 2 Plug bulb carefully but completely into socket. Use only an MR11 glass covered lamp bulb.

How to Shorten the Cable:

- 7 Screw quick connect into quick connect adapter until it seats. If you adjust the orientation of the pendant, be careful not to loosen the connection.

8 A For Standard Color trimsets: Hang A and B bead chains first, following the Crystal Color Map. Drop strands of crystal beads through slots in top grid. Make sure to follow A - B pattern shown.

B For Premium Color trimsets: Hang A bead chains first, following the Crystal Color Map. Drop strands of crystal beads through slots in top grid.

- 9 Grasp C chain of crystal by the top crystal. Slip the chain through side opening of the grid slit. It will nest into position between the top and second crystal.
