### The New SloanStone™ Lavatory System — The Perfect Match

The performance and dependability of Sloan Optima<sup>®</sup> and the durability of Solid Surface are now combined in the SloanStone<sup>™</sup> Lavatory System.

Hygienic and durable, SloanStone<sup>™</sup> is stain, chemical and impact resistant. A SloanStone<sup>™</sup> Lavatory System is easy to install and easy to maintain.

SloanStone<sup>™</sup> Lavatory Systems can be provided with your choice of Sloan electronic Optima<sup>®</sup> faucet. The "hands-free" operation of an electronic Optima<sup>®</sup> faucet ensures hygiene while maintaining an aesthetically pleasing look that is suited for any public rest room installation.

The lavatory system is designed to comply with all applicable ADA, UFAS, Texas Accessibility Standards (TAS), and ANSI Z124.3 and Z124.6 accessibility guidelines when mounted at the standard 34" rim height.

# **Triple Station Lavatory System**

### **OPERATION**

As the user's hands enter the beam's effective range, the beam is reflected back into the sensor receiver and activates the solenoid valve allowing water to flow from the faucet. Water will flow until user's hands are removed or until the faucet reaches its automatic time out limit setting.
