

#### **SCONCES**

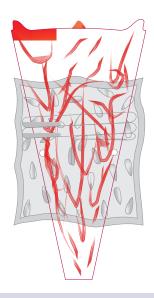

### **GENERAL PRODUCT INFORMATION:**

This product can mount to either a 4" square electrical box with round plaster ring or an octagon electrical box.

This product is suitable for damp locations.

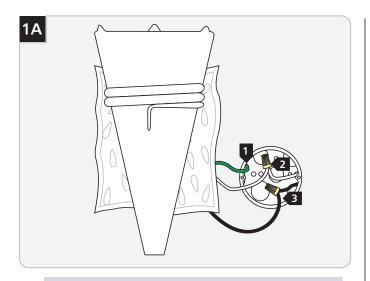

This product can be dimmed with a standard incandescent dimmer.

#### CAUTION—RISK OF FIRE

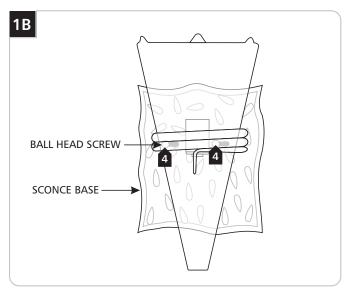

This product requires installation by a qualified electrician. Before installing be sure to read all instructions and TURN THE POWER TO THE ELECTRICAL BOX OFF.

## Mount the Sconce to the Electrical Box

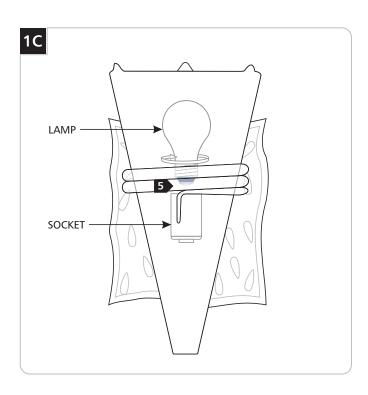

**NOTE:** Use the provided universal round crossbar when the sconce base holes do not line up with the electrical box holes.

- **1** Ground the fixture to the electrical box in accordance with local electrical codes.
- 2 Connect the white wire to the neutral 120 volt power line wire with a wire nut.
- Connect the black wire to the hot 120 volt power line wire with a wire nut.

4 Line the sconce base holes with the electrical box holes and secure the plate with two ball head screws.

**CAUTION:** To reduce the risk of a burn or electric shock during relamping, disconnect the power to the fixture by turning the wall switch off.

Use **MAX** 120 Volt, **150** Watt A21 (medium) base lamp.

A 120 Volt, **100** Watt A19 (medium) base lamp (recommended) is provided with the fixture.

5 Screw the lamp into the socket.
