

WALL COLLECTION

Revel Wall

DESCRIPTION

Captures light in motion. The sleek metal surface is laser-cut with several horizontal slots which allows light to shine through the inner white acrylic diffuser. The diffuser wraps around the inner top and bottom to conceal the hardware and lamping when viewed from any angle 45° above and below or if mounted vertically, both sides. Optional wood end caps complement the design with a touch of warmth in an unexpected way. May be mounted horizontally or vertically. Includes two 13 watt 2GX7 base twin tube compact fluorescent lamps. LED version dimmable with low-voltage electronic dimmer. ADA compliant.

INSTALLATION

Mounts to a standard 4" square junction box with round plaster ring (provided by electrician).

gloss black

COLOR OPTIONS

antique bronze

gloss black

gloss white

satin nickel
