

INSTALLATION INSTRUCTIONS FOR 9806

For Post Lamp Fixture

WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER
AVERTISSEMENT ! COUPER LE COURANT AUNIVEAU DES FUSIBLES OU DU DISJONCTEUR

HANG THE FIXTURE (Fig.1)

1. Pull the power supply wires out from post and fixture lead wires out from post cap. Connect the electrical wires as shown in fig.2 make sure all wire nuts are secured and wrap connections with electrical tape. Attach power supply ground wire to fixture ground wire. Using a wire connector rated for the size of wires being connected.
2. Place connected wires down inside post and mount post cap over post. Secure the post cap to post using 3 x 1/2" long set screw provided.
3. Install light bulbs in accordance with the fixture's specification: **DO NOT EXCEED THE MAXIMUM WATTAGE RATING!** (**NE PAS DEPASSER LA PUISSANCE NOMINALE MAXIMALE**)
4. Insert glass into fixture, then place lamp cover over frame until it's snaps in place.

Your installation is now complete. Return power to the junction box and test the fixture.
