1. Install the crossbar (B) with ceiling loop (D) to outlet box by using mounting screws (C) provided.

2. Put canopy (E) to ceiling loop (D), and secure with lock collar (F).

3. Using the dimensions of the fixture as a guide, shorten the chain (G) as needed using a pair of chain pliers.

4. Take into consideration that the chain end link will be used to mount the chandelier once excess chain is removed.

5. Unscrew the threaded collar on the chain end link. Attach the chain to the ceiling loop (D). Close the threaded collar to secure the chain.

6. Unscrew the threaded collar on the other chain end link. Raise the fixture and attach chain end link to the top ring (H). Close the threaded collar to secure the fixture body.

7. Put the rubber washer (S) and the metal plate (O) onto the nipple (P), and then put the glass diffuser (N) onto the rubber washer(S) and secure it onto the nipple (J) with the rubber washer (I) & metal loop (K).

8. Unwrap the wiring from the top of the fixture body. Weave the power supply cord and the ground wire through the chain (G).

9. Strip the insulation back on the two power supply wires about 5/8".

10. When the wire reaches the canopy and ceiling loop, measure wires and cut. Be certain to leave enough to connect inside of the canopy.

11. Twist the power supply and ground wires together and push through the center hole in the ceiling loop.
