PRODUCT DESCRIPTION

Low voltage miniature recessed unit with frosted "dome" glass lens. Used for lighting in cabinets, displays and similar wooden applications. Not intended for use in walls or ceilings.

FEATURES

- Shallow installation depth ideal for use in shelving, cabinets and displays.
- Not intended for use in walls or ceilings
- Mounts quickly with butterfly clips
- Requires a Class 2 transformer
- Order lamp separately
- An all-in-one style recessed unit, comes with housing and trim - ready to install out of one box.
- Non-IC unit. Intended for installations where insulating materials will not be present.

SPECIFICATIONS

Materials: Housing is steel, finished in brushed nickel, gold, or white. Electrical component within the can is a bi-pin ceramic socket with nickel plating. Wiring consists of 30" of 18 gauge teflon insulated wires with fiberglass sleeves leading from the socket through the top of the housing.

Transformers: Remote Class 2 Transformer required (order separately).

Light Source: One JC-20 20W max, 12V lamp included.

Mounting: 2 5/8" cutout hole. Two flat "wing" springs expand against the cut out hole to hold fixture against the surface. The insulated wires and socket are pre-installed in the housing with the wires leading out through the top of the housing. Simply connect to the remote class II transformer.

Standards: UL & CUL Listed
