AWC241TSZ - 151 Bottle Single Zone Built-In Wine Cooler

The towering Avallon AWC241TSZ 151 Bottle Built-In Wine Cooler is a great addition for the avid wine collector. The optional elegant display shelf and upscale internal finishes of this unit show your bottles off in style. A seamless stainless steel door gives this wine cooler the finished look that makes it perfect to build in to your cabinetry or use in a freestanding application. The matching stainless steel front vent and solid handle offer a sleek and modern finishing touch.

A top performing unit in the market, the AWC241TSZ utilizes air cooling technology, which allows for even air dispersion and precise temperatures within the unit, differentiating it from other units that use outdated cold plates. Its precise cooling enables you to keep either red or white wine bottles at their optimal storage temperatures. An upgraded compressor and anti-vibration gasket leave your wine undisturbed and make for proper aging of your wine collection.

State-of-the-art Argon filled double paned Low-E glass filters harmful UV rays away from your collection reflecting unwanted heat, making the unit more energy efficient, while the clear glass displays your bottles clearly. Touch panel digital controls and full pullout rolling wood shelves with stainless steel fronts provide a high-end look while also providing superb and easy-to-use functionality. The included carbon filter blocks unwanted odors, and optional white or blue side LED lights add to the overall deluxe look and feel of the wine cooler. Finally, rest assured that your wine collection will be safe with the included security lock.
