DO NOT HOOK UP DIRECTLY TO SUPPLY LINES. MUST BE INSTALLED WITH ANOTHER VALVE IN ORDER TO CONTROL TEMPERATURE.

Plumbing codes in your area may require installation of a backflow prevention device that meets the requirements of ASSE 1001*, 1011 or 1014*. For ASSE 1011 devices, refer to step 2B in the illustrated instructions that accompanies each handshower for backflow protection.

* Note: An ASSE 1001 device must be installed at least 6 inches above the level of the highest usage of the handshower and an ASSE 1014 device cannot be subjected to more than a 2-foot head of pressure.

• Bath waste assemblies and bath accessories are available separately.
