# Did you know?

“According to *Food & Water Watch*, more than 17 million barrels of oil -- enough to fuel one million cars for a year-- are needed to produce the plastic water bottles sold in the United States annually.”

- August 2009, *Washington Post*, “Bottled Water Boom Appears Tapped Out”

“Americans went through about 50 billion plastic water bottles in 2006. The recycling rate for PET is only 23%, which means 38 billion water bottles go into landfills each year--more than \$1 billion worth of plastic”

- July 2007, *Fast Company Magazine*, “Message in a Bottle”

“The recommended eight glasses of water a day, at U.S. tap rates equals about \$.49 per year; that same amount of bottled water is about \$1,400.”

- June 2009, *Banthebottle.com*, “9 Ways To Reduce Plastic Bottle Waste At Your Workplace”

“There are fewer regulations regarding bottled water than tap, according to the *New York Times*. And there are many claims that plastic bottles leach small amounts of chemicals such as antimony. “

- September 2009, *San Jose Mercury News*, “6 Reasons to Ditch that Plastic Bottle”

## EZH<sub>2</sub>O™ to Go!

Elkay's new EZH2O™ bottle filling station provides a **rapid** fill of water to **quench thirst** and **minimize plastic bottle waste** in the environment!

### Quick

- The EZH2O fill rate\* is 1.1-1.5 gpm; 3 times faster than a standard drinking fountain
- One-handed operation allows for quick fill between activities
- No wasted time searching for floor-standing point of use coolers

\* Fill rate is 1.1 gpm for refrigerated units / 1.5 gpm for non refrigerated units

### Clean

- Electronic sensor provides touchless, sanitary operation
- NEW WaterSentry® Plus filter is optional with all models
- Integrated Silver Ion Anti-microbial protects against mold and mildew growth

### Green

EZH2O saves...

- Consumer **spending** on plastic water bottles vs. tap water
- The **environment** from plastic bottle pollution
- **Energy** to produce plastic disposable bottles

# One Solution. One Location

- No more paper cup waste
- No more expensive bottle water service
- No more mess from floor-standing point of use coolers

The EZH2O provides one solution for all drinking water needs. Great for **education, fitness clubs, healthcare and hospitality facilities**. Whether to fill a sport bottle or just grab a quick drink from the water fountain, EZH2O meets all needs in one location.

## Field Retro-fit Kit

EZH2O can attach to an existing Elkay EZ style\* water cooler, and transform it into a new bottle filling station.

\*Applicable on 115V/60Hz, push-bar activated, single and bi-level units

## Combination Kit

EZH2O and water cooler come factory prepared as a complete kit for quick and easy installation.

## NEW WaterSentry® Plus Filter

3000 gallon capacity

Quick, 1/4 turn install

Provides clean, great tasting water and removes lead!

## In-wall Design

Ideal for new construction; EZH2O can stand alone or pair with Elkay Soft Sides® and SwirlFlo® drinking fountains to create the ultimate high-end water station.

# EZ to...

## Specify

- EZH20 can be used in commercial applications that partner with existing “EZ style” water coolers and drinking fountains
- Meets adult or child ADA standards when properly installed
- Easy Order Guide makes ordering simple and quick

### Green Ticker™

The innovative counter indicates how many bottles have been saved from landfill waste.\* Provides immediate feedback supporting sustainability initiatives.

\*Informs user of the number of 20 oz. plastic bottles saved from landfills.

## Install

- Retro-fit Kit designed for easy field installation
- In-wall unit comes with mounting frame to make installation simple and quick
- In-wall unit is available with an Elkay 8 gallon chiller or can pair with larger Elkay remote chillers located within 10-15 feet of unit

### Filtered/Non-filtered

All models are available with or without filtration. Filtered models include high capacity Water Sentry® Plus filter.

### Coming Soon! Surface Mount

Ideal for areas where only a bottle filling station is needed and limited access in the wall.

## Maintain

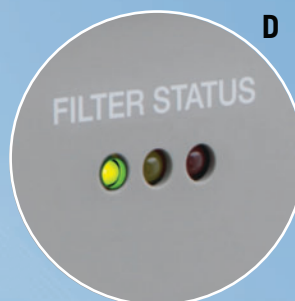

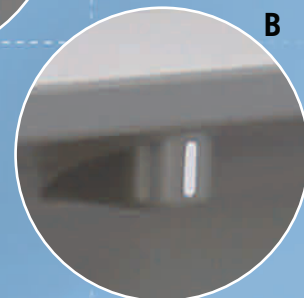

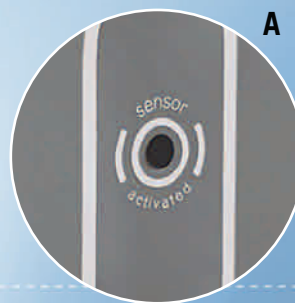

- For filtered models, an external Visual Filter Monitor confirms filter water delivery and indicates when filter needs changing
- In-wall unit has hinged top and bottom access panels for easy service
- Integrated Silver Ion Anti-microbial makes it easy to clean by protecting against mold and mildew growth

Elkay  
"EZ" Style  
Water Cooler

## Features and Benefits

### A Sensor Activated

- Electronic sensor provides touchless, sanitary operation
- No need to hold bottle, just place in front of sensor and fill
- Sensor is equipped with automatic 20-second shut-off timer
- User interface design makes touchless operation intuitive

### B Water Dispenser

- Fill rate\* is 1.1-1.5 gpm
- Laminar flow provides clean fill with minimal splash and easy maintenance
- Plastic surrounding dispensing area is integrated with **Silver Ion Anti-microbial** to inhibit growth of mold and mildew

### C Green Ticker™

- Informs user of number of 20 oz. bottles saved from landfills

### D Visual Filter Monitor (filtered models)

- Green, yellow, red LEDs are located in front to visually indicate when filter needs maintenance

### Silver Ion Anti-Microbial Product Protection

Selected plastic components are integrated with Silver Ion Anti-microbial, this inhibits the growth of common bacteria, molds, and fungi that cause stains, odors and product deterioration for the useful life of the product.

*See inside for full product offering.*

\* Fill rate is 1.1 gpm for refrigerated units / 1.5 gpm for non refrigerated units

Discover the  
professional's choice.™

## Tradition. Vision. Conviction.

Elkay was founded as a small sink manufacturing company on the North side of Chicago. We have grown significantly from these humble beginnings, but our dedication to making innovative products and exceptional customer service remains the same.

Today, Elkay is a leading manufacturer of stainless steel sinks, faucets, water coolers, drinking fountains and bottle filling stations, delivering unprecedented levels of style and function to plumbing professionals.

We are driven by core values that have evolved since 1920, values that are reflected in every product we manufacture, and our conviction to provide total satisfaction to every customer, every day.

## American Pride. A Lifetime Tradition.

Like your family, the Elkay family has values and traditions that endure. For almost a century, Elkay has been an American-owned and operated company, providing thousands of jobs that support our families and communities. We are proud to say ELKAY USA.
