Installation Notes

Install this product according to the installation guide.

For this steam generator, do not exceed the maximum rating volume.

To determine the appropriate model for your installation, determine the cubic feet of your steam area by multiplying L x W x H. Compare the total to chart and use the closest match. Always round up. For every foot of ceiling height over 8' (2.45 m) use the next larger steam unit.

Minimum required access is 20" (50.8 cm)
L x 13" (33" cm) H x 6-1/2" (16.5 cm) W.
