MAINTENANCE AND CLEANING INFORMATION

Everyday cleaning should consist of liquid cleaners such as Dow or Lysol foaming bubbles, Top Job, Mr. Clean or liquid Lysol along with a sponge. Remove hard water stains, mineral or soap build-up with scale removers such as Lime-Away. If necessary, you may use an abrasive cleaner such as Ajax or Comet with a nylon brush or pad to remove build up on the pebble surface. Do not use steel wool or a wire brush. An abrasive cleaner, brush or pad will not remove the finish because the color is molded throughout. However, it is best to avoid the higher sheen surface of the floor. Prolonged scrubbing of this area could cause it to look dull and promote soap build up.
