

GROHE SOLUTION EXPERTISE RETROFIT RENOVATION

The **GROHE Retro-Fit™ Shower System** transforms an existing head shower installation with concealed pressure balance valve into a luxurious shower system with a head shower that swivels to the perfect angle (the shower arm can be either be fixed or used as swivel) plus the added convenience of a hand shower – both featuring GROHE DreamSpray® technology. Adding to the luxury experience is that both the head and hand showers can be operated simultaneously. The optional 6" height extension offers an extra solution for most application. Furthermore, the upgrade is quick and easy to install as there is no need to change the tiles or remove any of the original work. It immediately creates a fully customized shower experience.

The **GROHE Retro-Fit™ Shower System** comes pre-packed with Euphoria head and hand showers or as a basic package without head or hand shower. It can be used in any design of bathroom as it complements all GROHE shower products.

BEFORE

AFTER
