

MERIDIAN® SERIES

ICE AND WATER DISPENSERS

World-class
hospitality begins
with world-class
equipment.

Whether it's serving customers or catering to staff and visitors in breakrooms, office suites and other settings, reliable dispensers help get the job done. In fact, they can improve everything from morale and efficiency to – more importantly – customer satisfaction.

That's why the experts at Scotsman created the Meridian® Series, a powerful lineup of ice and water dispensers designed with your operation's unique space, production and installation needs in mind. With the Meridian® Series, you get premium reliability, time-saving serviceability and intuitive cleanability – along with the softest, most satisfying ice form on the market today.

meridian®

MERIDIAN® SERIES

ICE AND WATER DISPENSERS

Our proprietary maintenance-free bearing is fully sealed with a special polymer that provides lubrication without the need for greasing.

Internal LED indicator lights alert maintenance staff when it's time to descale, sanitize and more.

SmoothStream™ water dispensing technology reduces splashing and keeps the machine and surrounding areas clean.

Every model features a convenient QR code for quick access to manuals, parts lists and warranty history information.

Unique external air filter location improves breathability and accessibility, while requiring less side clearance for tighter installs.

meridian®

Scotsman – A true industry leader

As the world's largest manufacturer of ice systems with over 300 models of ice machines, bins and dispensers, Scotsman is dedicated to developing the next-generation technologies that make ice production more convenient, efficient and reliable. 100% of Scotsman units are quality checked before leaving our ISO 9001:2015 certified factory in Fairfax, SC.

The Meridian® Difference

DEDICATION TO SANITATION

Scotsman's Meridian® Series was designed to emphasize sanitation and ease of cleaning. For users, the touch-free, infrared dispensing of ice and water eliminates the need to physically touch the dispenser for more sanitary operation. Additionally, the sealed refrigeration system minimizes outside airborne contamination, while AgION® and other antimicrobial compounds are molded into key components to help inhibit the growth of microbes, bacteria, mold and algae. To allow for easy cleaning and maintenance, the units also feature a fully removable storage bin, spouts, air filter, sink and grill.

SMARTER CONSTRUCTION

The Meridian® Series features stainless steel components, larger sink drain openings and enhanced, high-tech dispensing that helps prevent overflow. Intelligently designed, SmoothStream™ water dispensing technology reduces splashing to keep the machine and surrounding areas clean.

QUIETER OPERATION

With its improved condenser fan function, the Meridian® Series delivers the ice you need without the distraction of noisy equipment – helping maintain an inviting atmosphere for customers.

SPACE-MAXIMIZING DESIGN

The Meridian® Series offers the industry's smallest available footprint relative to capacity, making any model ideal for areas where space is at a premium. And with Scotsman's specially designed contoured side panels and external air filter, you'll get more breathability with minimal clearance required.

ENHANCED SERVICE FEATURES

Whether it's Scotsman's convenient USB drive that allows fast software updates without replacing the control board or a new removable sink and grill that provide maximum front access for easy cleaning, the Meridian® Series helps reduce service and maintenance time at every step.

H² Nugget Ice

All Meridian® Series units produce Scotsman's chewable H² Nugget Ice which is slow-melting and designed for reliable dispensing.

Model Options

HID312
260 lbs./day
stores 12 lbs.

HID525
500 lbs./day
stores 25 lbs.

HID540
500 lbs./day
stores 40 lbs.

DISPENSING OPTIONS

Touch-free infrared
sensor dispensing

User controlled
antimicrobial push-
button dispensing

ADDITIONAL OPTIONS

Optional 4" adjustable legs for easy cleaning underneath the unit, newly designed stands with a lockable hinged door for internal storage, as well as, available wall mount versions.

WARRANTY

- 3 years parts and labor.
- 5 years parts on the compressor and condenser.
