

Two-Circuit MonoRail Direct-End Power Feed

DESCRIPTION

A direct-end power feed canopy brings power from a two-circuit remote transformer (sold separately) to the rail at one end of the run and mounts to a wall perpendicular to the run. The low-voltage leads from the remote transformer are connected to the canopy leads inside the junction box. This canopy provides two independent circuits.

INSTALLATION

Mounts to a 4" junction box with round plaster ring (not included).

OTHER INFORMATION

For use with a two-circuit single-feed remote transformer (sold separately).

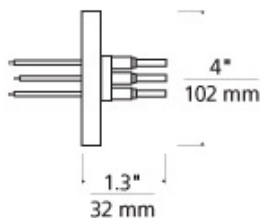

WEIGHT

0.93lb / 0.42kg
