

**BATH COLLECTION** 

#### **GENERAL PRODUCT INFORMATION:**

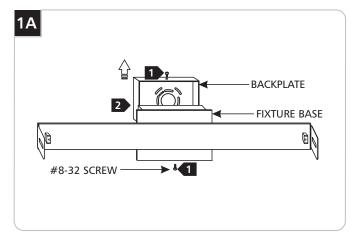

This product is suitable for damp locations.

This product can mount to either a 4" square electrical box with round plaster ring or an octagon electrical box.

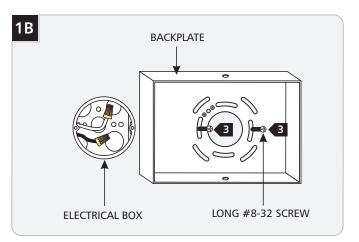

#### CAUTION—RISK OF FIRE

This product requires installation by a qualified electrician. Before installing be sure to read all instructions and DISCONNECT POWER TO THE ELECTRICAL BOX.

# **Install the Backplate**

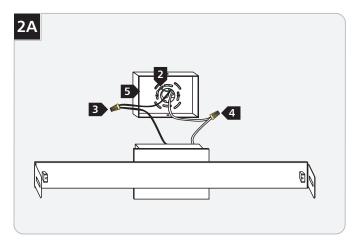

- 1 Remove the two #8-32 screws on the backplate with a Phillips head screwdriver.
- 2 Remove the backplate from the fixture base.

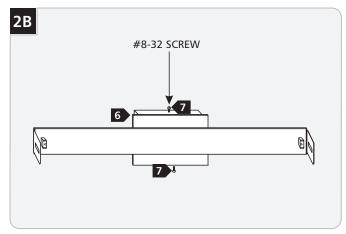

Mount the backplate to the electrical box with two long #8-32 screws.

## **Connect the Power**

- 1 Turn the power to the electrical box off.
- 2 Make sure that the backplate is grounded in accordance with local electrical codes.
- Connect the black fixture wire(s) to the hot power line wire with a wire nut.
- Connect the white fixture wire(s) to the neutral power line wire with a wire nut.
- 5 Properly place all wires into the backplate.

- 6 Place the fixture base onto the backplate and align the holes.
- **7** Replace and tighten the #8-32 screws.

## Install the Lamp and Shade

**CAUTION:** To reduce the risk of a burn or electric shock during relamping, disconnect the power to the fixture by turning the wall switch off.

Use MAX 24 Watt type T5 High Output linear fluorescent lamp.

- 1 Align the lamp pins with socket slots.
- Push the pins all the way into the socket slots and rotate the lamp until it clicks into the place.

- 3 Carefully slide the shade onto the fixture base.
- Install the screws to the ends of the shade to hold the shade in place.
