

The Mosaic Collection

Fresh, vibrant, distinctive

For centuries, mosaic has been a respected art that mixes small pieces of colored stone or glass to create beautiful, lasting designs. A19's Mosaic Collection takes this Old World craftsmanship and gives it a modern twist.

Quality that stands the test of time

In addition to their beauty, all of A19's fixtures – including the Mosaic Collection – are manufactured for durability. Because they're ceramic, they're resistant to harsh weather conditions and won't rust or corrode. Additionally, we seal the grout on each mosaic wall sconce and pendant to prevent soiling and make cleaning a breeze.

The Mosaic Collection includes both incandescent and Energy Star fluorescent options, as well as ADA-compliant sconces. Our sconces are available with an open top to provide ambient up-and-down light, or a closed top for Dark Sky applications and down-light effects by request.

Each pendant comes with a matching canopy and six feet of cord, which can be cut to the desired length.

Unique, handcrafted fixtures

The ceramic process we use to create our Mosaic Collection fixtures means that there will be subtle variations in each piece – it's what makes A19's products unique and why people have continued to buy our products since 1998. We're proud to say that the Mosaic Collection, like all A19 products, is made in America – or as we love to say, in sunny Southern California.

Customize your choice

The Mosaic Collection allows you to customize our wall sconces and pendants to suit the specific needs of your space. If you're looking for an alternate color combination or have an idea you don't see, simply give us a call at (800) 664-4204. We'll work with you to create just the right fixture.

Options legend (add code for desired option to fixture item#)

LAMPING OPTIONS	CODE	DESCRIPTION
Standard		100W A19 Medium base, or 60W Candelabra base as noted per fixture (Bulb not included).
Compact Fluorescent	CFL13 or CFL26	13W or 26W GU24 base, Energy Star rated (Bulb included).
Halogen	HAL	100W Medium base, double envelope halogen bulb (Bulb included).
Outdoor / Wet Location	WET	Single outdoor sheltered socket for wet locations (this is an open-top fixture suitable for rainy locations; use bulb coated for shatter resistance) (Bulb not included).
	WETST	Sealed Top for Wet Location (Available with CFL options only; <i>add CFL codes to the order number</i>).
	WETL	Wet Location Label (For Downlights, where the socket is sheltered by the fixture).
Diffuser Option	DIF	Frosted Diffuser: use only to conceal view of bulb from above (on stairs, lofts etc.) <i>Suitable for CFL option; if incandescent is required, selecting this option will change the base to 60W candelabra max; not for use in wet locations and not sold separately.</i>
Pendant Cord & Canopy	WCC	White Cord & Canopy (6 ft cord).
	BCC	Black Cord & Canopy (6 ft cord).

How to Order

To order any pendant from the Mosaic Collection, simply choose the item number for the style you prefer and add the code for any desired option(s).

Damp or Wet

A19's standard light fixtures are UL listed for damp locations. Any location, indoors or out, is considered to be a "damp" location—as long as the fixture is not in direct contact with water. Outdoors under an eave, for instance, would be "damp."

Wet locations are unsheltered outdoor areas that are exposed to direct contact with rain and require fixtures to be ordered with an "outdoor/wet location" option

ADA Compliance

Fixtures with a depth of 4 inches or less meet the handicap projection requirements set forth by the American Disabilities Act (ADA).

Dark-Sky & Light Pollution Reduction Efforts

Fully shielded downlights are available by request to meet IDA's Dark-Sky standards and other growing outdoor lighting regulations. They direct all light downward, where it is needed, rather than outward and upward where it contributes to sky glow, light trespass and other forms of light pollution. Artificial light at night has also been shown to affect the mating, migration, and predation behaviors of many different species (including turtles), and consequently, the ecological community as a whole.
